

Data Flow Diagram

Date: 30.09.2026 **Team ID:** MKU201SpreadSheets
Project Name: Import data using Transform Maps

Data Flow

The diagram below represents the workflow evidenced by the supplied ServiceNow screens and the stated project scope.

Supporting evidence from the screenshots

- The Load Data screen shows the existing Employee Import import set and file-based import option.
- The Transform History screen identifies the import set as Employee Import and shows the displayed run completed in 1 second with 20 total records, 0 inserts, 0 updates, 3 ignored, 17 skipped and 0 errors.
- The Employee Tests list contains the target employee records and can be filtered by Location = Hyderabad.
- The Reports screen shows reports using Employee Test [u_employee_test], including Employees by Department and Employees by Location.
